Help

Welcome to the studIT support pages

On this website you'll find all information concerning information technology for students at Göttingen University. These pages are constantly under review, so it is worth checking for new information every once in a while.

Full text search: You can search for keywords and tags in the search window.

Navigation: There is an extendable menu on the left side of the website, so you can look up categories very quickly.

Tags: Every article is tagged with several keywords. Further down on this page you'll find a tag cloud, showing you the most common tags. After a click on a tag in the cloud, a list of articles tagged with this keyword will show up.

If you want to know what studIT is and what we are doing, click [HERE!](#)
