Printing

With your account from studIT you are able to print at different locations at university campus or even from home at a reasonable price. At the beginning of each semester some students will get a certain amount of printing contingent which is financed from tuition fees and will be credited on your printing account. During the opening hours you can recharge your printing account with your chip card at the chip card issue point.

In the following section you can find all the information you need about printing with your university account.

- Printing from your own PC (Windows)
- Printing from your own computer (Ubuntu)
- Connecting to a printer (in the LRC SUB and GÖNET respectively)
