eCampus manual

On the following pages you will find all information regarding the usage of the eCampus web portal.

You can use all functions of ecampus when you log in with your student account. You have received your account when you got your student ID. In case you encounter problems using ecampus please contact our helpdesk of studIT Support. ecampus is the central platform for students for checking E-Mail, enrolling in courses or lectures in Stud.IP, applying for exams in FlexNow, using the calendar or the self-service functions for printing certificates etc.
